

“The new hardwood gate will last for in excess of 100 years.”

Deb Gillanders

Friends of Old St Stephen's Church

Project:

New gate

Subject:

Facilities and building improvements

Location:

Fylingdales, Whitby, North Yorkshire

Overview:

Old St. Stephen's is a community building close to Robin Hoods Bay. The Friends of Old St. Stephen's group arranges services and events, and cares for the church and churchyard.

£500 was awarded to the group to purchase a new gate, which was rotten and no longer fit for purpose. The new gate is a new point of welcome which is appreciated by all. It also ensures that the sheep which graze in the grounds are kept off the road.
